

DIY MOLD REMOVAL VS. PROFESSIONAL MOLD REMEDIATION

WE PUT TOGETHER SOME OF OUR DIY MOLD REMOVAL TIPS AND TRICKS WHILE SHOWING YOU HOW A PROFESSIONAL MOLD REMEDIATION COMPANY SUCH AS RHODE ISLAND RESTORATION, CAN REMOVE THE MOLD FAST AND EASY.

SHOULD YOU CLEAN THE MOLD YOURSELF?

OVERALL, IF YOU ARE DIY'ING IT YOU WILL BE ABLE TO PRETTY EASILY PREVENT FURTHER MOLD FROM GROWING ANYWHERE AROUND THE ORIGINAL SOURCE, AS LONG AS THE MOLD HAS JUST STARTED TO GROW.

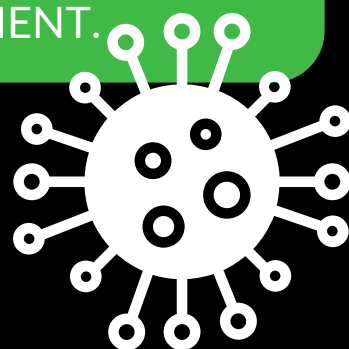

DIY TIP:

HOMEOWNERS WHO WANT TO TAKE CARE OF THEMSELVES CAN USE A MIXTURE OF BLEACH AND WATER. THIS WILL SURELY KILL MOLD ON CONTACT WITH THE BLEACH AND THOROUGHLY CLEAN THE SPOT OF ANY OTHER POSSIBLE GROWTH. ALSO, WEAR PROTECTIVE EQUIPMENT.

HOWEVER...

MOLD IS DANGEROUS AND IS SIMPLY HARD TO DIY. THEREFORE WHEN YOU HAVE SIGNIFICANT DAMAGE, DIY IS OUT OF THE QUESTION.

A RESTORATION COMPANY WILL BE ABLE TO SPOT UNDETECTABLE MOLD

A RESTORATION COMPANY WILL BE ABLE TO COME IN, FIND SPOTS WHERE UNDETECTABLE MOLD WILL GROW IF LEFT UNTREATED AND RESTORE THE DAMAGES BACK TO NORMAL.

A PROFESSIONAL MOLD REMEDIATION COMPANY WILL HAVE THE EQUIPMENT TO DETECT MOLD GROWTH AS WELL.
